Ref ID: 81-03 Tree Warranty

The information below is in response to questions posed at our department's hearing on October 7, 2015 to discuss the proposed 2016 budget.

Alderman Tunney asked for the number of trees replaced under warranty.

Using a 5 year study (2009-2014), Bureau of Forestry planted 16,829 trees. Within that time span 295 trees under warranty were replaced. This represents a 1.75% replacement ratio.

Ref ID: 81-04 Recycling Tonnage Collected in the 44th Ward

The information below is in response to questions posed at our department's hearing on October 7, 2015 to discuss the proposed 2016 budget.

Alderman Tunney asked for the recycling tonnage collected in the 44th ward in 2015.

DSS does not track tonnage by ward. It is tracked by Service Area. The 44th ward would be included in the tonnage from Service Area Two. Through July 31, Service Area #2 tonnage has reported 11,806 tons with an 18.83% diversion rate.

Ref ID: 81-05 Feral Cats and Rodent Control

The information below is in response to questions posed at our department's hearing on October 7, 2015 to discuss the proposed 2016 budget.

Alderman Tunney asked for the department's thoughts regarding the use of feral cats to help control rats.

This technique is not something DSS recommends, for several reasons.

- Feral cats would not limit their predation to rats; they would prey on rabbits, squirrels, birds, and other cats.
- Feral cats may bite or scratch citizens.
- Feral cat droppings would litter the streets and alleys creating a food source for the very rats they are supposed to be reducing.
- Feral cats can also carry and propagate diseases.

As always, please let me know if you have any further questions.

Ref ID: 81-06 Tree Trimming Coordination

The information below is in response to questions posed at our department's hearing on October 7, 2015 to discuss the proposed 2016 budget.

Alderman Tunney asked for the process by which CDOT and DSS coordinate lighting projects with tree trimming.

The Bureau of Forestry currently receives correspondence from CDOT-Division of Electricity regarding lighting maintenance or new lighting locations. CDOT's Managing Deputy Commissioner informs the Bureau of Forestry of the locations that require tree trimming; not all locations actually require Forestry service.

Ref ID: 81-07 Evaluation of Managed Competition for Recycling Program

The information below is in response to questions posed at our department's hearing on October 7, 2015 to discuss the proposed 2016 budget.

Alderman Tunney asked for an updated evaluation of the managed competition used in the recycling program.

- Prior to the competitive bidding, the Blue Cart Recycling program used 45 City crews consisting of one Driver and one Laborer per truck to collect recyclables from 240,000 households.
- In October 2011, the competition began
 - City crews providing service in zones 2 and 4 to 115,000 households using 22 crews.
 - Private vendor crews in zones 1, 3, 5, and 6, providing service to 125,000 households.
- In April 2012, the Blue Cart program expanded to an additional 20,000 households in area 3, increasing the total households participating in the program to 260,000.
- In April 2013, the City began the final roll-out of Blue Cart Recycling to the remaining 240,000 households in the City.

- October 2013, the city-wide Blue Cart recycling expansion was completed with a total of 600,000 households participating in the program.
- As part of the first phase, 16 City crews were used to collect recyclables.
- With full recycling, the City has 27 City crews and 2 private companies for the 516K carts.

Status of Blue Cart Recycling Competitive Bidding After Complete Rollout						
	Pre-Competitive Bid \$/Cart/Month	Cart Count*	Pre-Bid Annualized Costs	Post-Competitive Bid \$/Cart/Month	Cart Count*	Post-Bid Annualized Costs
City Crews	\$4.77	515,266		\$3.97**	165,552	\$7.5M
Vendor Crews				\$2.90	351,360	\$11.7M
Totals	\$4.77	515,266***	\$29.3M		516,912	\$19.2M

*Number of total carts in program does not equal the total number of households as multi-unit buildings often share a single cart.

**Average for first 9 months of 2014 – price expected to fluctuate with correlating recycling income (see below).

***Revised cart count from original estimate

Annual Blue Cart Recycling Costs Rolling Expansion 2013 to Full Year 2014

Average Recycling Revenue**	(\$370K)	(\$300k)	(\$148M)	\$152K
Total Cost	\$13.9M	\$19.2M	\$19.95	\$.75M

*Estimates based on actual crews used to collect recyclables and differs from the personnel budgeted for the program.

**City retains revenue from recyclables collected by City crews while recyclables collected by vendors become their property.

Ref ID: 81-08 Sanitation Tickets Issued in the 44th Ward

The information below is in response to questions posed at our department's hearing on October 7, 2015 to discuss the proposed 2016 budget.

Alderman Tunney asked for the number of sanitation tickets issued in the 44th ward and the revenue collected from those tickets.

From January 1 through September 30, 2015 the department issued 68 tickets in the 44th Ward for violations of various ordinances of the sanitation code. The maximum value for these tickets is \$6,800. The cases were forwarded to Administrative Hearings for processing.

Ref ID: 81-10 IDOT Garbage Collection Schedule Along the Dan Ryan

The information below is in response to questions posed at our department's hearing on October 7, 2015 to discuss the proposed 2016 budget.

Alderman Dowell asked for the IDOT schedule of garbage collection along the Dan Ryan Expressway.

According to IDOT they schedule a crew three times a week to clean up litter and debris along the Dan Ryan. They do not have set days; they decide which days to clean up depending on the weather.

Ref ID: 81-16 Tree Trimming Timeline

The information below is in response to questions posed at our department's hearing on October 7, 2015 to discuss the proposed 2016 budget.

Alderman Cappleman asked the department to provide a timeline for tree trimming.

The bureau has successfully eliminated the 2013 & 2014 tree trim requests backlog this year. The Bureau of Forestry is currently working on 2015 trim requests and will transition to removal operations in mid-October. As you may know the Bureau of Forestry works in seasons to balance tree trim services with tree removal services. Trim season will resume in May 2016. With the additional resources allocated to us by Mayor Emanuel in the 2016 budget the bureau anticipates completing the 2015 requests mid-August of 2016 (weather permitting). During the trim season each ward is given a 3-day blitz with 3 - 4 crews per ward.

As always, please let me know if you have any further questions.

Ref ID: 81-17 Refuse Collection Fee on Foreclosed Properties

The information below is in response to questions posed at our department's hearing on October 7, 2015 to discuss the proposed 2016 budget.

Alderman Lopez asked the department to provide information regarding the ability to charge a refuse collection fee to banks who deposit refuse from foreclosed properties in the alley / public way.

In instances where refuse overflows receptacles or impedes the public way DSS already issues tickets to the receivers of foreclosed properties. To the extent that rental units in these buildings are still occupied, as long as the tenants dispose of refuse / recycling in a responsible way DSS has no recourse to fine the financial institutions who own the buildings.

As always, please let me know if you have any further questions.

Ref ID: 81-19 Contract Spending History

The attached information is in response to questions posed at our department's hearing on October 7, 2015 to discuss the proposed 2016 budget.

Alderman Moore asked the department to provide a three-year history of contract spending, including amount, MBE/WBE status, and why firms not awarded contracts were not selected.

For the past three full years of contract expenses please see attachments.

Regarding why firms not awarded contracts were not selected: At the Prime Contractor level the lowest responsive, responsible bidder is always selected.

On the Sub-contractor level, DSS has no control over this. The sub-contractors are selected by the prime contractor / winning bidder.

A low bidder may not be selected if they do not have the capacity or the necessary equipment to perform the work up to contract specifications at the time the contract is awarded.

As always, please let me know if you have any further questions.
